

Rachid Idrissi, MD, PhD

Dr. Idrissi received his medical degree, as well as, a PhD from Mohammed V University, School of Medicine in Rabat, Morocco before moving to California in 1999.

He did medical research at Stanford University before going on to a Surgical Internship at the Cornell University Medical College Program in New York. He completed his residency in Physical Medicine and Rehabilitation at the University of Louisville and the world renowned Frazier Rehab and Neuroscience Center. Following his residency he completed a fellowship in Interventional Pain Management at Emory University.

Every case is based on a search for the root cause of a patient's pain, not just a "quick fix" approach aimed only at symptomatic relief. When pain is managed properly, the net result is a more active lifestyle, which in itself leads to a healthier existence.
