About the Methodist University Physician Assistant Program Golf Tournament

The Methodist University Physician Assistant Program was established in 1996 and has sent nearly 280 graduates into practice all over the United States. Methodist University has a passion for excellence that spills over into the quality of the health care professionals who graduate each year.

A key reason for our continued success is the review session that each student attends prior to taking the Physician Assistant National Certification Examination (PANCE). This review helps ensure that each student is prepared for the exam. Fund raisers such as this golf tournament will help the students in Methodist University's Physician Assistant Program attend a review for their national certification exam.

Most importantly, this year's golf tournament will also help benefit The Care Clinic of Fayetteville. The Care Clinic is a free treatment center that provides medical care to low income and uninsured residents of Cumberland County. It first opened its doors in 1993 and operates under four major principles: Compassion, Assistance, Referral, and Education, all of which are vital components of healthcare today.

MUPAP maintains a commitment to better health-care and excellence. Did you know...

- the Methodist University PA Program (MUPAP) boasts a 97% overall pass rate on the PANCE.
- The Class of 2011 had 5 **maximum** scores on the PANCE, which has never been achieved in the history of the program.
- MU is one of the only PA Programs to offer a full cadaver lab, reserved strictly for PA Students.
- The MUPAP receives over 450 applications a year for 40 seats.
- The MUPAP just recently open the doors to a full Anatomy Lab and 168 seat Medical Lecture Hall.
