

## **Student-Right-To-Know**

Our data shows that 34% of the full-time new freshmen who entered Methodist College in Fall 1999 have received a baccalaureate as of Fall 2005. In addition, another 7% were enrolled as of Fall 2005. This information is provided pursuant to requirements of the Student-Right-to-Know and Campus Security Act of 1990.

Graduation rates are a measure of the success of students in attaining their educational goals. A graduation rate is the percentage of students in a given entering cohort (group) who graduated within a specified period of time. The number of students in the entering cohort is the denominator of the rate; the number of students graduating is the numerator of the rate. The entering cohort of an institution includes all full-time, first-time degree- or certificate-seeking undergraduate students who began in the stated cohort year. The time period is 150% of normal time to program completion (for example, for a four-year program, the graduation rate would include students who had graduated within six years of beginning the program).

Transfer-out rates are the total number of students in the entering cohort who are known to have transferred to another institution within 150% of normal time to program completion, divided by the cohort.
