

Prerequisite Check-List

Coursework:	Required	Taken	Grade	*Quality Points
__ Microbiology with lab	4 s.h.	_____/____	_____	_____
__ Anatomy and Physiology with lab	4 s.h.	_____/____	_____	_____
__ 4 s.h. of Biology (animal or life)*	4 s.h.	_____/____	_____	_____
__ 4 s.h. of Biology (animal or life)*	4 s.h.	_____/____	_____	_____
__ General Chemistry I with lab	4 s.h.	_____/____	_____	_____
__ General Chemistry II with lab	4 s.h.	_____/____	_____	_____
__ Organic Chemistry I with lab	4 s.h.	_____/____	_____	_____
__ Organic Chemistry II with lab	4 s.h.	_____/____	_____	_____
__ Biochemistry	3 s.h.	_____/____	_____	_____
__ College Algebra or higher	3 s.h.	_____/____	_____	_____
__ Statistics with a Math or Stats prefix	3 s.h.	_____/____	_____	_____
__ 3 s.h. of Psychology*	3 s.h.	_____/____	_____	_____
__ 3 s.h. of Psychology*	3 s.h.	_____/____	_____	_____
__ Medical Terminology	1 semester	_____/____	_____	_____

**Please note the 8 s.h. of Biology and 6 s.h. of Psychology have been broken down by class rather than combined*

**Help determining quality points and unofficial GPA can be found on page 2*

Determining Your Medical Core Prerequisite GPA

The following information will help you determine an unofficial grade point average for the required prerequisites. Again, this information is not official and applicants should be aware the program reserves the right to determine a GPA different than applicants. This checklist is to be used only as a guideline to help determine what classes have been taken, what classes have not been taken, and which classes need to be retaken. Any classes with a “C-“or lower will not be accepted.

How to calculate a GPA:

To help determine your GPA each class is given a semester hour (s.h.) credit, a letter grade, and quality/grade points. Quality points are calculated by multiplying the number of semester hours times the numerical value assigned to the letter grade (see below for numerical assignments).

Point Systems

A= 4 pts.

A- =3.7 pts.

B+= 3.3 pts.

B= 3 pts.

B- = 2.7 pts.

C+= 2.3 pts.

C= 2.0 pts.

C- = 1.7 pts.

D+= 1.3 pts.

D = 1 pts.

D- = .7 pts.

F= 0 pts.

For example, if an applicant has taken an Anatomy and Physiology course with 3 s.h. of lecture and 1 s.h. of lab (total 4 s.h.), scores a letter grade of “B” they will receive 12 quality or grade points (4 s.h. X 3 pts = 12 Quality points).

To calculate the GPA: Total all semester hours and quality points, then divide quality points/semester hour.

Example:	<u>Taken</u>	<u>Grade</u>	<u>Quality Points/Grade Points</u>
A&P with lab	4 s.h.	B	12
Microbiology with lab	4 s.h.	A	16
Genetics with lab	4 s.h.	B-	10.8
Cell biology with lab	4 s.h.	B+	13.2
General Chemistry I with lab	4 s.h.	A-	14.8
General Chemistry II with lab	4 s.h.	C	8
Totals	24 s.h.		74.8 quality points

$$74.8/24= 3.12 \text{ GPA}$$
