Please be advised that you must have an appointment before visiting the Student Health Center. You can make appointments by calling 910.630.7164.
The Student Health Center will not be accepting visitors at this time to protect our community. Only those seeking medical services will be allowed in the clinic.

Please see below the CDC guidelines for the COVID-19

**Share Facts About COVID-19**

**Fact 1**
Diseases can make anyone sick regardless of their race or ethnicity.
People of Asian descent, including Chinese Americans, are not more likely to get COVID-19 than any other American. Help stop fear by letting people know that being of Asian descent does not increase the chance of getting or spreading COVID-19.

**Fact 2**
The risk of getting COVID-19 in the U.S. is currently low.
Some people who live in or have recently traveled to places where many people have gotten sick with COVID-19 may be monitored by health officials to protect their health and the health of other people in the community.

**Fact 3**
Someone who has completed quarantine or has been released from isolation does not pose a risk of infection to other people.
For up-to-date information, visit CDC’s coronavirus disease 2019 web page.

**Fact 4**
You can help stop COVID-19 by knowing the signs and symptoms:
- Fever
- Cough
- Shortness of breath
- Seek medical advice if you develop symptoms
- Have been in close contact with a person known to have COVID-19 or if you live in or have recently been in an area with ongoing spread of COVID-19.

**Fact 5**
There are simple things you can do to help keep yourself and others healthy:
- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

**Stop the Spread of Germs**

**Help prevent the spread of respiratory diseases like COVID-19.**

- Avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick, except to get medical care.
- Wash your hands often with soap and water for at least 20 seconds.
