“Methodist University. God Go with Thee for Eternity”
From the MU Alma Mater

Though Fall 2020 was arguably the most unique semester in Methodist University history, our community was able to move forward together (page 20) and was appreciative of the valuable thoughts, prayers, and gifts from our cherished alumni and friends (pages 27–59).
Young Alumni, welcome to the forever Monarch Family. We want you to know that you are an important part of our ever-growing MU alumni family.

Visit methodist.edu/alumni/benefits to explore your alumni benefits!

For more information on any of our alumni benefits, contact the Alumni Office at 800.488.7110 ext. 7167 or alumnioffice@methodist.edu.
What a year it has been! Perhaps the most challenging year in the history of Methodist University. Because of the alarming fast spread of COVID-19 in the spring and a state of emergency in North Carolina, MU had to suspend in-person learning for one week, beginning on March 16. 2020, so faculty could prepare a shift to fully remote teaching and learning.

On March 18, we announced that our commencement ceremony was canceled. After the one-week break in classes, we transitioned to fully remote learning on March 23. Because of the increasingly rapid spread of the pandemic, we also required our residential students to vacate the residence halls and return home on March 23. All faculty and staff who could do so were told to work from home as well, and all sports practice and competition was canceled for the remainder of the school year. In less than three weeks, the campus became silent and empty. And of course, all the pandemic and subsequent shutdowns created a recession and widespread job loss, which had a major impact on the lives of our students and their families.

At the same time, following the death of George Floyd at the hands of Minneapolis police on May 25, another national crisis began to take shape that would have a profound effect on many of our students. The first protest of Mr. Floyd’s death was held in Minneapolis on May 28, and by June 6, protests had spread to all 50 states.

These things happened with breathtaking speed, and could have left Methodist University reeling. But because of our outstanding faculty and staff, we were able to plan, adapt, and respond quickly. The faculty did a heroic job of transitioning to remote learning, making sure our students continued to receive the high-quality education for which MU is known. Staff worked effectively and efficiently from their homes. And MU found ways to assist students and to keep all faculty and staff fully employed. We received CARES Act funds, which we were able to provide directly to students. We had previously established the Last Dollar Fund to help students remain in school when they were struggling to cover costs. And, we established the MU Rapid Response Fund to help students with financial and food insecurity challenges related to the pandemic. In addition, we were able to acquire a Paycheck Protection Program loan that helped us avoid any employee furloughs or layoffs through the end of 2020.

Fast forward to fall semester 2020. Because of a nearly universal willingness of the entire MU community to practice social distancing, wear masks, and follow health and safety protocols, we were able to complete the entire fall semester on campus with in-person learning. It was a triumph for MU at a time when so many schools across the state and nation had to send their students back home before the semester ended. About mid-semester, we also were able to resume limited sports practices, but the USA South Conference made the decision to postpone all fall and winter sports until spring semester.

2020 was a stressful but highly gratifying year to serve as MU’s president. I have been heartened repeatedly by the hard work, care, and compassion of our faculty and staff. I have been equally impressed by the resilience and commitment of our students. We have truly been able to continue moving Forward Together.

Please read more on this in our cover story starting on page 10.

As I write this message to you, we are launching the 2021 Spring Semester. We began with remote learning for the first two weeks, with a phased return of students over a four-week period. As of today, that process has gone well. Also going well are a number of important strategic initiatives we have begun. In partnership with a consulting firm called Credo — known for helping universities improve student success, retention, and graduation rates — we are well into a student success initiative that will help us keep many more of our students in school until they graduate in a timely manner.

In January 2021, we also launched the first six new programs in the newly established MU Online, a set of fully online undergraduate programs in Business, Criminal Justice and Psychology; master’s programs in Business Administration (MBA) and Health Administration (MHA); and a post-bachelor’s certificate in Health Care Administration. These programs will serve adult learners across the Sandhills region, the state, and the nation.

In addition, we have signed four agreements with local community colleges and are working on two other agreements. These partnerships are creating clear and streamlined pathways for community college students to transfer all of their credits to MU, so that they can complete a timely and hassle-free bachelor’s degree after completion of their associate’s degrees at the community colleges.

Further, we created a Task Force on Racial Healing, consisting of faculty, staff, board members, and students, tasked with listening to the MU community’s experiences with race and racism, helping us determine how we can continue to ensure that MU is a place of racial equity and inclusion.

But wait, there’s more, as they say on those kitschy late-night TV commercials. We also have been making many improvements on campus. Because of generous gifts and grants, we were able to completely renovate the Green & Gold Dining Hall to offer our students a beautiful and inviting 21st-century dining experience.

Another major gift made it possible for us to install lights in our football and lacrosse stadiums, which will give us much more flexibility for both practices and games. A third major gift made it possible for us to completely renovate and upgrade our soccer stadium, and in addition, gave us the opportunity to finish improvements to our on-campus, 6,500-yard golf course.

Finally, partially through grant funding, we were able to address the deep ravine that cut through the middle of our campus and was threatening the structural integrity of several buildings. The repair work was done in a completely sustainable and environmentally friendly manner, have eliminated the threat of the ravine and opened up a beautiful vista between the golf course and other sports facilities down back.

Be sure to take a unique ‘bird’s-eye’ view of these wonderful campus improvements in a special photo series called “2020 (re) Visions” starting on page 37.

My second year as president of MU was filled with challenges and successes. We will continue to maintain our focus on ensuring that MU thrives for many years into the future, but we also continue to face many challenges related both to recent enrollment declines (which MU Online will more than offset over time) and the ongoing physical and financial stresses of the pandemic. If you’re interested, there are many opportunities for you to help our students. We have funds established for scholarships, as well as the funds I mentioned above that directly benefit students with financial challenges. I personally have donated to these funds, and I humbly encourage you to do so as well. As you can see in our “Thank You to Donors” special section, that’s long enough for you to receive their gifts in a long way in improving the lives of our students.

I wish you all good health, happiness, and success in 2021.

Sincerely,

Stanley T. Wearden, Ph.D.
President
Students moved into their on-campus residence halls on Aug. 7, 2020. Classes began the following Monday. Only a few months later, a new class of graduates earned their degree and moved on to the next leg of their journey.

Fall and spring 2020 graduates were honored in their own Virtual Graduate Celebration Ceremony, which included speeches from the president, provost, and students; a reading of the names of the graduates; presentations of special awards; and prayers for guidance.

The videos premiered on YouTube the date on which commencement was set to occur. Viewers were invited to participate and cheer on their graduates in a live chat.

To watch the Virtual Graduate Celebration videos from Spring 2020 and Winter 2020, scan the QR codes below!

---

**Stellar Students**

During the May and December 2020 Virtual Graduation Ceremonies, MU named distinguished graduates and the winner of the Fall 2020 Sam R. Edwards Award.

The top-five students (by grade-point average) are nominated for Distinguished Graduate, and the senior class selects one of these five to represent their class. The Sam R. Edwards Award was given to a student in the MU at Night program based on a vote from MU at Night faculty.

---

**Rembrandt Visits MU**

The David McCune International Art Gallery on the Methodist University campus celebrated its 10th anniversary in 2020 with the "Rembrandt: The Signs and the Light" exhibition, which ran from Sept. 11 to Nov. 18, 2020. Visitors were masks, were socially distanced, and used magnifying glasses to view the more intricate details of the exceptional collection of 39 etchings spanning the 15-year career of Rembrandt van Rijn (1609-69). The etchings included religious figures and scenes, portraits, figure studies, genre scenes, and the famous beggars.

---

**Selecting the Select Medallion Winners**

The Algernon Sydney Sullivan Foundation selected Methodist University to award Algernon Sydney Sullivan and Mary Mildred Sullivan medallions and certificates beginning with commencement ceremonies in May 2021. The University will also house a permanent plaque where the names of the recipients will be added annually. The medallions are awarded to students and members of the university community who have demonstrated noble character and have acted as humble servants to those around them.

---

**TOP-10 COUNTDOWN**

MU offers more than 80 areas of study. The undergraduate degree programs with the most majors for the 2020 Fall semester:

- **Business Administration (215)**
- **Biology (112)**
- **Pre-Nursing & Nursing (97)**
- **Criminal Justice (81)**
- **Kinesiology (73)**
- **Psychology (62)**
- **Engineering (51)**
- **Forensic Science (46)**
- **Social Work (46)**
- **Accounting (45)**

To explore all of our degree programs, visit methodist.edu/academics/programs.
**An MU Life-Saving Sister**

Nick Owen, 13, a former adjunct professor in the MU Theatre Program, recently received a life-saving gift – a kidney – from his sister Melissa 70.

In addition to a life-long battle with diabetes, Nick was diagnosed with Chronic Kidney Disease in 2016. At the highest-severity stage, when Nick's kidney functioning was at three percent, Melissa found out she was a match and could donate.

"When I called and told him I was a match, it definitely brought light to a tough hospital visit," Melissa said.

After the successful transplant in 2020, Nick says he is doing well and was told by his doctor that he is ahead of the curve in his recovery.

The family was supported by multiple community members and friends, raising more than $8,600 on GoFundMe and additional funds through shirt, bracelet, and Scarfey sales.

"The support has been fantastic," said Nick. "There have been so many people who have contributed both time and resources that it’s been a blessing."

**2020-21 Quick Facts**

- 33% of undergrad students are first-generation college students
- 97% of students receive financial aid

**Women’s Soccer Team on a “Twinning Streak”**

Did you know that our women’s soccer team has had a streak of twin sisters on the roster? Allie ’22 (left) and Grace Page ’22 are the most recent set, but Head Women’s Soccer Coach Bryan Mabey has had twins on his team for several years. Alexandra ’15 and Cassandra (Walter) Stapleton ’15 played 2011-14, followed by Catherine Gaughan ’20 (who played 2015-18) and Danielle Gaughan ’19 (who played 2014-18).

Visit MU Athletics at mun monarchs.com.

---

**Community Colleges Partner with MU**

Methodist University announced the development of several Memorandums of Understanding (MOUs) with community colleges across the state. The goal of the MOUs is to make transferring credits easier for community college students to enroll at Methodist. Current partner schools include: Central Carolina, Asheville-Buncombe, and Sampson Community. Additional partners will be announced in the spring.

**Any Signs of Racial Inequity Being Taken to Task**

Methodist University formed its Task Force on Racial Healing heading into the 2020 Fall Semester. This task force, made up of students, faculty, and staff, was created to address racial equity at MU. The task force has several forums in place for the 2021 Spring Semester.

**Preparing for the Election**

When election season was just around the corner – and with many students having never voted before – MU’s Center for Community Engagement hosted “Donuts and Democracy,” a voter registration event. This nonpartisan education and registration drive rewarded participants with a tasty treat.

**We Are Here to Hear**

Recognizing the stresses that came not only with the rise of COVID-19 as a world-wide pandemic, but also nationwide protests and a contentious election season, Methodist University launched a “Here to Hear” campaign. The goal of the campaign was to connect students, faculty, and staff with others eager to listen and the counseling professionals in the University’s Center for Personal Development, driving home the importance of mental health plays in a great education.
Behind the Scenes

Throughout the MU campus, at any given time, amazing efforts are put forth and triumphs are achieved. In the Athletic Department, such victories are achieved through our talented student-athletes and coaches, but there are others working just as hard in less visible capacities. Here are just a few of the many who help the Monarchs soar from "Behind the Scenes."

HENRY ABERNATHY
Athletic Fields Supervisor

Henry Abernathy is responsible for all of MU’s fenced athletic fields. As visitors arrive on campus, the first field they see is the Douglass Soccer Stadium with its carefully manicured lawn. Abernathy takes pride in his work and loves cutting the diagonal stripes in the field. "Henry’s knowledge of what it takes to make a field look incredible has certainly helped our visitors entering our campus, potential recruits, and current soccer student-athletes," said Head Women’s Soccer Coach Bryan Madej.

Abernathy starts his day on the tractor and mows the fields. He then uses a smaller mower for the trimming, followed by the weed eater for the fine tuning. Abernathy has a background in irrigation, but his knowledge and talents allow him to do it all.

"Irrigation is very important. Without proper water, fertilization, and treatments, we wouldn’t have the fields we have today," said Abernathy. "Scheduling is my favorite part of the job. It’s being on the tractor, ‘but could do without the threashole worthy weeds.’ He loves the progress he’s made in the beautification of MU’s athletic fields and so does the MU community.

"MU Athletics is very lucky to have Henry take care of all of our athletic fields," said Madej.

In addition to her role as FAR, Krist is an associate professor of Physical Education & Exercise Science. As the FAR, she is the acting liaison between academics and athletics.

"Sometimes bickering arises between academics and athletics," she said. "Academia wants students in the halls, but student-athletes must travel, which can sometimes generate conflicts. That’s where Krist comes in. If student-athletes run into an issue, they have a place to go." Krist is there to work with student-athletes and make sure they are successful in their academic endeavors.

"Dr. Krist is an amazing asset to the Athletic Department here at Methodist University," said Dee Dee Jarman, deputy athletic director. "Her caring nature for our student-athletes goes way beyond academics. She genuinely cares about our student-athletes. Not only does she provide services to our student-athletes, she holds weekly meetings to keep her team organized and to give them feedback on their progress."

"I am so grateful to have Dr. Krist as a part of our team," said Madej. "She is always available to students and coaches and goes above and beyond to ensure that our student-athletes are successful both academically and athletically."

DR. KYRSTIN KRIST
Faculty Athletic Representative (FAR)

ERIC WILKERSON
Maintenance Technician

Wilker son is also seen just outside the arena’s grounds, painting railings and restoring the large "MU" embedded in the Monarch Stadium grandstand.

"Eric is the indispensable behind-the-scenes person," said MU Sports Information Director Gregg Petcoff. "Sports Information, event management, participating teams, and fans would be left out in the cold without Eric’s actions in facility preparation."

Wilker son takes great pride in his work. His supervisors and fellow coworkers are quick to point out his importance in making the Athletic Department run smoothly, and how well he does his job.

"I’m the one responsible for this building," said Wilker son. "I do all the maintenance. And I can’t do it myself. I’m the one who puts in the work order." Wilker son works closely with MU’s coaches. He loves sports and it is thankful his job revolves around the subject. If you’re ever in an event in the Riddle Center in the past five years, you can bet it was Wilker son who set it up for you (including setting up team rooms). Petcoff said: "Eric’s day-to-day responsibilities at Riddle allow for a winning environment for the entire Athletics Department.”

BRENDA MCLAMB
Administrative Assistant

It has been repeatedly said, "Nothing gets done in this department without Brenda Mc Lamb." Mc Lamb is the administrative assistant to MU’s Athletic Department and her office is joined with the office of Dave Eaveson, MU’s vice president and director of athletics.

"I assist the coaches any way they need me. 1 use mail, contracts, agreements, and really just about anything else I can help with," she said. Mc Lamb assists coaches with their recruitment efforts and when their team travels. She works with the NCAA regarding MU’s student-athlete eligibility. She’s also the university’s liaison between campus and its telephone service provider.

"Brenda’s talents and skill set are a tremendous asset to our Athletic Department and university," said Eaveson. "Her hard work behind the scenes is extremely important to our day-to-day operations." Mc Lamb says her favorite part of the job is serving those who walk through her door. She loves it when student-athletes walk by her office and wave. She stops to chat, and she misses them dearly when they graduate. She often thinks about where they are today and hopes they’ll come back to visit and let her know how they’re doing. 1

Catching Up With KACHLER

by Jason Canady

A long-time Methodist University Head Baseball Coach Tom Austin about the best players who ever played in his program and he'll recite a who's who of the greats as if calling off the next batting order. Names like Jason Brown, Jay Kirkpatrick, Mike Brewington, and Danny Hartline roll easily off his tongue.

Fresh off Austin's "greatest lineup" is catcher Alex Kachler '20. During his four years at MU, Kachler raised the bar on some of MU's greatest baseball stats. He became the first student-athlete to earn the MU Male Senior Athlete of the Year, the MU Sykes Cup, and the Scholar Athlete of the Year. While Kachler set new records, he earned the Dee Scall Award, the USA South Athletic Conference's most prestigious award. He was voted CoSIDA First-Team Academic All-District, and placed on the Academic All-America Division III Baseball Team.

While racking up records on the baseball field, Kachler also earned a 4.0 grade-point average. Kachler's MU journey started while attending a baseball camp near Charlotte. MU Assistant Baseball Coach Spencer Martin '08 spotted Kachler and invited him to MU's baseball camp. When Kachler set foot on campus, his heart responded with a popular mantra at MU, "If felt like home."

"I know everyone says it, but it's true," said Kachler.

Kachler is described by Austin as thoughtful, analytical, honest, and hard-working. He has a "team-first" attitude, willing to do anything the coach asked him to do. Kachler was a great teamster and player, but what really stuck out to Austin was that Kachler worked hard when nobody was watching. MU's batting cages and facilities are open to any player willing to put in the extra work, and Kachler took full advantage. According to Austin, one of MU's biggest recruiting attractions was the access to round-the-clock training the program provided.

Kachler started on the MU junior varsity team as a first baseman. But in 2017, the starting catcher went down with a leg injury. Austin knew Kachler had catching experience in high school and called upon him to fill in. What happened next became a part of MU's rich baseball lore. Kachler threw out several base stealers, which surprised everyone (including the catchers). Austin immediately promoted Kachler to varsity and he played the very next weekend.

"You have a professional arm," Austin told Kachler. Kachler's high school coach had told him that very thing, only Kachler didn't believe it. It wasn't until Austin used those exact words that Kachler believed it.

"It surprised me. He said the words my previous coach said. 'You have a professional arm,'" said Kachler. It was in that moment when Kachler's focus of who he really wanted to become began to shift. He always wanted to play professional baseball, but now he felt validated.

Kachler worked hard and in his second season his batting average jumped from .264 to .347 and his hit total went from 24 to 69. The following year (2019), his batting average climbed to .406 with 67 hits and 54 RBI.

Kachler gives Austin and his staff the credit for his hitting IQ. Austin worked pitch selection into every single practice.

"At every plate appearance, Coach Austin taught us to know what the pitcher is trying to do to you and what he may throw, so we're just swinging blindly out there," said Kachler.

Through Austin, Kachler was connected to the Fayetteville Swampdogs, a collegiate summer league team. There, he learned more in-depth and additional catching techniques. He did well, playing in 43 games and finishing with a .333 batting average.

Through the 2020 baseball season was cut short due to the COVID-19 pandemic, Kachler put up numbers that rival professional all-star seasons. Kachler's career .56 doubles is a new MU record. He finished his playing days at MU with a .364 batting average, 143 hits, 147 RBI, and 119 runs scored.

Due to COVID-19, the NCAA allowed Kachler an extra year of eligibility, so he could pursue his graduate degree at the University of North Florida, and also play for the Division I university. Kachler continues to work hard in the hope of getting his chance to play professional baseball. With his talent and work ethic, the sky's the limit for Alex Kachler.

"Alex was a top student, but he also put in the work and was dedicated to his studies... his ability to balance the classroom and baseball helped him reach high levels in both."

- Dr. Denise Roett, chair and director of the Engineering Program

MU's TROPHY CASE

A few of the honors from 2019-2020

Academic All-Conference
 Methodist University Athletics placed 122 student-athletes on the 2019-2020 USA South Conference Academic All-Conference Team with a GPA of 3.3 or better for the fall and spring semesters.

In addition, MU had more than 250 student-athletes earn a 3.0 GPA or higher during the spring semester.

USA South Athletic Conference Don Scall Award & MU's Mason Sykes Cup Award
 Baseball student-athlete Alex Kachler (see feature on these pages) was named the 2019-2020 USA South Conference Don Scall Award winner. This award goes to the top male student-athlete in the conference.

Kachler also won the Mason Sykes Cup Award as the top performing student-athlete at Methodist for 2019-2020.

Female and Male Scholar-Athletes of the Year
 MU had 12 student-athletes earn a perfect 4.0 GPA for the 2019-2020 academic year. This is a record number for MU Athletics. The female winners were Megan Andrews, Katrina Kondezka, Allison Nagel, Emily Nokes, Elizabeth Schramm, and Aislinn Sherby. The male winners were Jacob Austin, Tucker Griswold, Steven Duke, Alex Kachler, Henry Murray, and Jonathan Wertz.

McLean Foundation Coach of the Year
 David Smith, head men’s basketball coach, was named the McLean Foundation MU Coach of the Year for 2019-2020. His team won the USA South Athletic Conference Championship advancing to the NCAA Men’s Basketball Tournament.

Athletes Hall of Fame
 2020 Fall of Fame Inductees: Francie Barregan, former head women’s tennis coach; Jerry Hogg, former head men’s golf coach and director emeritus of the PGA Golf Management Program at MU; Susan Martin, ’11, women’s golf; Kesley Zeiler (Oliver), ’11, track and field and cross-country.

Finding Joy in the Journey

by Gabrielle Isaac Allison ’15

Freshmen pre-nursing student Geraldo Sibinde ’24 is no stranger to long journeys.

After taking a plane out of his home country of Mozambique to Tanzania, Sibinde took four more connecting flights to make it to Methodist University’s campus. His physical journey was long, but he knew he was starting an educational journey that will improve the lives of his community.

“I always like the trip,” he said. “At times we learn more from the road than we do from the destination.”

Sibinde spent more than 48 hours traveling to MU. In the process, he acquired a rushed COVID-19 test, went through new customs procedures, an airliner lost his luggage, and it arrived a week after he started his first semester.

But he says it’s all worth it for the chance to make further advancements to health care in his home country.

“Back home, we need more qualified medical personnel, many been before 2000 had malaria at some point,” he said. “Back home, health care is improving, but there is still work to do.”

His advocacy for health care sparked at the young age of 13, but his main goal has always been to help those in his home country live a better life. Sibinde is one of six siblings, many of whom are focused on careers in education and engineering in hopes of reaching the same goal.

His educational journey—which brought him to MU—was long, but paired with fantastic opportunities.

In 2017, Sibinde attended United World College Costa Rica (UWCC Costa Rica). While there, he applied for and won the Ole Maia A Difference grant to help address child marriage and HIV/AIDS awareness in Mozambique. Following this project, he went to Brazil with Global Citizen Year, a gap-year fellowship program where he focused on educating citizens about environmental conservation.

While at UWCC Costa Rica, his college counselor urged him to look into MU. After researching the university, Sibinde knew it would be the next step on his educational journey.

“I wanted to go to a smaller college,” he said. “MU has like 2,000 students and one of the best nursing programs in the country.”

In 2020, Sibinde combined his passion for health care and writing and published a book of poetry in the Portuguese language. The book highlights issues we face in our world today and the title translates to, “The Country I Want.”

“My book talks about social problems in general,” he said. “It talks about what I would want to see in a society.”

Since arriving at MU, Sibinde has penned an English translation of his book, which is set to release on Amazon in May of 2021. He has at least two future books in the works, which will focus on different experiences and varying perspectives of life.

He says his passions for health care and writing are equal, and that he hopes his writing can help support him financially so he can assist those who cannot afford medical care.

“It’s dangerous for people not to have access to health care,” he said. “If that means I’m giving my time as a medical provider for free, I might have a source of income to support myself and others from my writing.”

As a pre-nursing student, Sibinde will need to keep a cumulative grade-point average of at least 2.6 and successfully pass pre-nursing courses. Then, he will have to complete the Kaplan Nursing Entrance Exam, apply to the program, and be interviewed by the Nursing Program Admissions Committee to be admitted fully into the nursing program.

“Our Nursing Program strives to attract students who genuinely view nursing as a passion and exhibit the desire to fulfill the holistic needs of the patient and community they serve,” said Dr. Shannon Matthews, director of the Nursing Program.

“[If I had to choose one group of people that keeps me going, it’s the children and those in rural areas...]
If I can impact even just a few lives, then that is progress.”

— Geraldo Sibinde ’24

Dr. Cheryl Dedion, assistant professor of Nursing and Sibinde’s advisor, said the most important qualities she feels every nurse should possess include authenticity, empathy and true compassion.

“Geraldo absolutely possesses these qualities,” she said. “As I’ve gotten to know him, what struck me most was his authentic empathy. It’s what has been driving him since he was a kid. He is committed, driven, and impressive. After meeting him a couple of times, I said we were so lucky he was coming to MU. I am so excited for him to start our Nursing Program.”

Dedion, who has experience in parts of Africa, agreed health care is improving in the area, but can improve further with skilled nurses and health care professionals. That is why the Nursing Program formulated a small group study with international students to better understand the goals of nursing students from other countries.

Sibinde was a part of this study, which Dedion says should result in a four-year plan for international students interested in pursuing nursing.

Following his successful completion of the Nursing Program at Methodist University, Sibinde hopes to practice his profession for a few years in the United States before returning home.

“If I had to choose one group of people that keeps me going, it’s the children and those in rural areas,” he said. “The rural area of my country is where many people don’t have access to hospitals. If I can impact a few lives, that is progress.”

ABOUT THE MU NURSING PROGRAM

The current Methodist University Nursing Program began in 2016, and graduated its first class in May 2014. Its mission is to “educate nursing students to be professional, competent, and caring nurses who can think critically, communicate with compassion, and contribute to positive health outcomes for the people they serve.”

14 percent of Nursing students at MU are international students.

The program is accredited by the Commission on Collegiate Nursing Education.

The Nursing Program is housed in a 10,000 square-foot General Simulations Hospital.

35 percent of MU Nursing students are underrepresented minority students.

Learn more about the MU Nursing Program at methodist.edu/nursing.
Mikayla Drumey ’21D, OTD Professor Dr. Matt Foreman, Lauren Frey ’18, ’21D and OTD Professor Dr. Dana Kolbfleisch collaborated to adapt a power wheels vehicle, for a toddler with mobility limitations, as a part of the Go Baby Go Project.

The program’s first class of 30 students were enrolled in the Fall 2018, and they will graduate in December. "Occupational therapy is an exciting profession that serves individuals and communities as a bridge between medical science and the social-cultural human arts," Gronski said. "Our students will launch their careers to address chronic disease, disability, and mental health conditions in a variety of clinics, schools, home-based care, and communities. Our goal is to produce highly skilled, compassionate occupational therapists who are committed to bringing innovative care to our communities in North Carolina.”

In the classroom, students are engaged by coursework in human health, anatomy, and kinesics, along with a variety of courses dealing with therapeutic methods and professional practice skills. All students must also complete a capstone project, begin in the second semester and culminating in a project completed in the ninth semester. Students also collaborate on research with OTD faculty and their colleagues in the Doerte of Physical Therapy program.

In addition to a rigorous didactic curriculum, OTD candidates do clinical fieldwork to gain practical experience in occupational therapy interventions. The state-of-the-art laboratories and equipment in the Thomas R. McLean Health Sciences building provide many opportunities to simulate occupational therapy settings. While the COVID-19 pandemic has curtailed the types of off-campus settings in which students can safely engage, fieldwork and community involvement remain strength of the program.

“When safe, we visit and learn out in the community,” said Gronski. “We established a community advisory board in 2017 composed of local clinicians, and our community partners have kept us rooted in our mission to link learning activities in the curriculum, our faculty scholarship, and our exceptional fieldwork education to surrounding local and regional community agencies and programs.”

Extracurricular community involvement for students is also encouraged. The program has established a campus chapter of the Coalition of Occupational Therapy Advocates for Diversity (COTAD), with the goal of increasing the diversity of applicants to Methodist University’s program.

“The profession of occupational therapy is 90 percent white and female,” said Gronski. “We will hold events to increase awareness about the profession, as far back as middle school, and with underrepresented groups and communities.”

Another immeasurable strength of the program is its faculty. All members of the OTD faculty are licensed to practice in North Carolina, and they practice in their areas of specialization one day per week. Faculty who are practicing clinicians naturally bring what they have learned from authentic, contemporary clinical experiences into the classroom.

The faculty are actively engaged not only in practice, but also in academic research. Gronski’s recent research has focused on occupational therapy interventions for young children to support self-care skills and sleep. Among the diverse research interests of the other OTD faculty are providing occupational therapy for persons with sensory processing disorders (Dr. Amy Spence), neuromotor conditions (Dr. Matthew Foreman), chronic disease and dementia (Dr. Dana Kolbfleisch), and neurological and orthopedic injuries (Dr. Cindy Setb. Dr. Susan Muciguzic specializes in management of rehabilitation services, and the program’s newest faculty member, Dr. Sheryl Michel, has established herself in the cutting edge of rehab program development for children with disabilities.

Lauren Frey ’18, ’21D, a graduate of MU’s Biology Program, was attracted to the OTD program because it was the first of its kind in North Carolina and that it focused on evidence-based practice. But for Frey, occupational therapy was influential to her at an early age. Born with seven fingers, Frey was visited by an occupational therapist for the first time when she was an infant. She credits the support of her family and occupational therapy with helping her on the way to success, and she wants to fill the same role for others going through similar trials.

“Just because I’m different doesn’t mean I’m disabled. Having that mindset at such an early age really helped me understand other people who are going through differences,” Frey said. “Growing up through that, and knowing how people who are different feel, really helped me get an understanding of how to help others.”

Now the Class of 2021 is on the verge of graduating and joining the profession as entry-level practitioners, and Frey is excited about the opportunities that await her.

“In the next 10 years, I hope to work or volunteer in every type of setting, because I don’t want to get too comfortable in one type of setting and not try all the other ones,” she said. “The advantage of occupational therapy, coming in as a generalist, is that you can work in every single area.”

OTD Faculty Member Receives One of U.S. Army’s Highest Civilian Honors

On Nov. 6, Methodist University Assistant Professor of Occupational Therapy Dr. Sheri Michel received the Meritorious Civilian Service Medal, one of the U.S. Army’s highest honors for civilians, for her work at BAMC at Fort Sam Houston in San Antonio, Texas.

Prior to joining MU’s Doctor of Occupational Therapy program in August 2020, Michel worked as the Chief of Rehabilitation Services at the Soldier Recovery Unit (formerly Warrior Transition Battalion) at Brooke Army Medical Center. She was honored with the award for her work with the U.S. Army, which dates back to 2008, during an OTD faculty and staff meeting via Zoom. “Without a doubt, it truly is an honor,” said Michel. "I know that I made a difference over the years, some small and some large. It is quite humbling and exciting to know that others saw my accomplishments as distinguishable enough to warrant an award of this caliber.”

Dr. Sheri Michel, Assistant Professor of Occupational Therapy, received the Meritorious Civilian Service Medal.
Fall Semester Debuts
New Academic Department Organization
by Michael Moller ’94

July, Methodist University announced it would change its administrative structure for academic departments from five schools to three colleges, starting in the Fall 2020 semester. For several years, academic departments were located in either the School of Arts & Humanities, the Charles M. Reeves School of Business and Economics, the School of Health Sciences, the School of Public Affairs, or the School of Science & Human Development. The new structure consists of the College of Arts, Humanities & Sciences; the College of Business, Technology & Professional Studies; and the College of Health Sciences & Human Services.

The main goal of this reorganization is to create opportunities for engagement and collaboration across disciplines while aligning our teaching and research functions with both our mission and shifting market demands,” said Dr. Suzanne Blum Moller, University provost. “By organizing programs that share traditions and are experiencing increasing connections for cross-disciplinary work under the same qualitative roof, we can foster creative partnerships and interaction for faculty and students, extend and highlight current strengths of our growth programs, and strengthen the offerings in our general education curriculum, which serves as the core learning experience for every Methodist University student.”

Several other structural changes have occurred at the departmental level. The Departments of Music & Theatre have combined to form the Department of Performing Arts, and the Psychology & Sociology Departments are now one Department of Psychology and Sociology. Also recently, the Departments of Athletic Training, Kinesiology, and Physical Education and Health Education merged to form a new Kinesiology Department. The Criminal Justice Department, which also houses programs in Forensic Science and Digital Forensics and Cybersecurity, has been renamed after being known as the Department of Justice Studies for a decade.

Three of the former school deans have been appointed to lead the colleges. Former School of Arts & Humanities Dean, Dr. J. R. Hustwit, heads the College of Arts, Humanities and Sciences. Dr. Tat Chan, who served as dean of the School of Science & Human Development, helms the College of Business, Technology & Professional Studies. Dr. Trey Hoyt leads the College of Health Sciences & Human Services after serving as interim dean of the School of Health Sciences. Dr. Kimberly Scobion, who was dean of the Reeves School of Business, has returned to full-time teaching, and Dr. George Hendricks, former dean of the School of Public Affairs, has accepted a position in the Institutional Advancement Office.

List of Departments by College

**College of Arts, Humanities & Sciences**
- Dr. J. R. Hustwit Dean
- Art
- Biology
- Chemistry
- Physical Science
- Communication
- Criminal Justice
- English and Writing
- Military Science ROTC
- Modern Languages and Literature
- Philosophy and Religion
- Performing Arts
- Personal Science
- Psychology and Sociology
- Reeves School of Business and Economics (all majors and concentrations)
- Computer Science
- Education
- Engineering
- Environmental and Occupational Management
- Mathematics

**College of Business, Technology & Professional Studies**
- Dr. Tat Chan Dean
- Health Care Administration
- Kinesiology
- Nursing
- Occupational Therapy
- Physical Therapy
- Physician Assistant Studies
- Social Work
- Health Care Management
- Business Administration
- Marketing
- Psychology Counseling/Clinical Psychology
- Human Performance Psychology
- Social Work

**College of Health Sciences & Human Services**
- Dr. Trey Hoyt Dean
- Public Health Administration
- Nursing
- Occupational Therapy
- Physical Therapy
- Physician Assistant Studies
- Social Work
- Health Care Administration
- Clinical Psychology
- Human Performance Psychology
- Social Work
- Community Health Education (Cert.)
- Health Care Administration (Cert.)
- Master of Business Administration
- Master of Health Administration

The Quality You Expect.
The Flexibility You Need.

Apply Now for 100% Online Degrees

You don’t have to come to campus to benefit from a Methodist University education. You can enjoy an online learning environment that offers the same quality as in-person courses, including dedicated faculty members and an overall caring, friendly atmosphere for pursuing your professional and personal goals. And you’ll have access to all of the academic support services that on-campus students receive.

Our programs are perfect for working adults and MU is always there to “Serve Those Who Serve,” whether that’s active duty military, veterans, or their families.

Call us at 910.212.4956 to speak with a knowledgeable counselor dedicated to personalize your enrollment experience. We’ll be with you every step of the way. Visit online.methodist.edu for more information.

A GROWING LIST OF DEGREE PROGRAMS INCLUDE:
- Accounting
- Business Administration
- Computer Information Technology
- Criminal Justice
- Health Care Administration
- Marketing
- Psychology Counseling/Clinical Psychology
- Human Performance Psychology
- Social Work
- Community Health Education (Cert.)
- Health Care Administration (Cert.)
- Master of Business Administration
- Master of Health Administration
Monarchs Rise to the Challenges of a World-Wide Pandemic

These are unprecedented times. No one could have foreseen in December 2019, as mask-less Methodist University graduates walked across the stage at the Cumberland County Arena, the world would be under a health and economic crisis just a few months into the next year.

The year 2020 saw COVID-19 move into our lives like a Trojan horse, wreaking havoc on our privacy and the comforts of daily life. No one was immune. The presence of COVID touched every citizen in every city, every nation. In March, the impact of the virus reached MU.

Methodist University responded at once to the challenges presented by the pandemic. It’s not possible to eliminate the virus, so MU’s goal then and now was reducing exposure and keeping the safety of our students as the No. 1 priority.

The objective to remain open for in-person classes in the fall – when universities across the nation were closing their campus doors – could only be reached if the community cared enough to stay safe, follow strict guidelines, and to sincerely move Forward Together.]

“I believe in years to come we will look back on this as a time when we were severely tested and passed the test with distinction.”

— Dr. Stanley T. Wearden
President
From Methodist University President, Dr. Stanley T. Wearden (August 2020)

“That special drive for excellence, that singular ability to care for and encourage one another, are as evident—and perhaps even more important—as ever before at MU. COVID-19 has challenged all of us in ways we never would have imagined at this time last year, yet here we are at the beginning of a new semester eager to learn, grow and accomplish our goals as always...

We have a very special community here at Methodist, and I am confident we will continue to lead by example, support each other, and fulfill the individual commitments necessary to overcome the hurdles COVID-19 has put before us. As teammates, committed to excellence, we will accomplish our goals not by ourselves, but by moving Forward Together.”

MU Pandemic Response Team (PRT) Launches in March

On March 5, 2020, before the first COVID-19 case was reported in Cumberland County, a team was formed to keep Methodist University on top of the pandemic crisis. The team—which remains active today—consists of leaders from every area of campus, as well as public health and medical experts. The team consults with expert epidemiologists and remains in constant contact with the Cumberland County Health Department. The team meets regularly, prepares COVID-19 guidelines for MU, and updates policies as the virus shifts.

Our House is in Order

One of the great successes of the fall and early spring semesters has been the efforts put forth by students and staff in the residence halls. With necessary guidelines to limit gathering, and prohibit visitors to other residence halls, students were able to find ways of enjoying fellowship without opening the doors to the spread of COVID-19. While students are supplied with masks and sanitation stations in every building, the MU staff charged with keeping the residences clean and safe continues to go above and beyond.

Taking Tests

On July 21, the March F Riddle Center at MU was turned into a free COVID-19 testing lab. This summer testing was just one of multiple opportunities for the MU community to get free testing on campus in 2020.

The Green Screen App

Because aspects of the COVID-19 virus could shift daily and require an up-to-the-minute status, Methodist launched “The Green Screen App”. Encouraged by MU administration to be used each morning by faculty, staff, and students, the app acts as a wellness check-in. Users answer wellness questions and respond to COVID-19 safety protocols by pledging to do their part in keeping the campus safe.

As MU’s new guidelines and policies regarding COVID-19 were put in place, an extensive campaign was also released. Overnight, posters and signage were placed throughout campus reminding everyone to keep safety protocols in the forefront of their minds. Hallways and classrooms saw custom-made Monarch sanitations stations, which allowed students access to sanitizing gel and wipes. Signs that read “Do Your Part,” hung throughout campus and stickers on the floor directed students where to stand and reminded everyone to stay socially distanced. Meanwhile, signs on MU’s doors share the occupancy limits for each room. Throughout campus, seating was strategically limited, and signs could be seen in classrooms and venues that offered the important direction: “Skip This Seat.”

MU Launches COVID Resource Web Site

To keep the Methodist community informed and up to date regarding COVID-19 policies, a COVID-19 resource website was launched in July 2020 called “Forward Together.” Updated daily, the comprehensive site acts as a one-stop guide for all new policies, schedules, and COVID-19 information. Quick links supply fast information for Methodist COVID-19 updates and answer questions about how cornerstone programs like Academics, Religious Life, Athletics, Dining Services, Student Accounts, Student Involvement, and more are responding to the pandemic. Major categories such as safety protocols and gathering guidelines, are represented along with a dashboard which provides on-campus COVID-19 statistics. The site taps into the power of videos to instruct faculty and students on the latest guidelines like wearing masks, housing, socializing, and new classroom etiquette.

The Power of Video

Studies show that students would rather click and watch an informative video than read the same information in print. To help demonstrate COVID-19 protocols, Methodist launched a series of videos with the message, “It’s in Our Hands.” The videos featured MU students who reminded their fellow classmates to use their Green Screen app, how to stay safe while traveling, and taking part in indoor and outdoor physical activities. The series kicked off with a video featuring faculty and staff revealing why they wear a mask in the video, “I Wear My Mask Because…” In October, a campus-wide music video was recorded called, “Monarch Mask.” The video, which span lyrics and melody from the classic Halloween song “Monster Mash,” demonstrated COVID-19 protocols in a fun way. MU’s videos were so compelling, the university was asked by the North Carolina Independent Colleges and Universities organization to lead a seminar on quality and usage for all of the other NCICU schools.
MU Students and Faculty Show Their Class

While colleges across the country were closing their doors to in-person learning, MU students and faculty focused on safety guidelines and, through contact tracing, not a single COVID case spread via the classroom. While remote learning remained a high-quality option, to finish and entire fall semester in classrooms was an amazing accomplishment.

To Gather Without Gathering

What if it were your job and responsibility to bring students together for social interaction, only students have limits on gathering because of the necessary safety protocols? This has been the task facing Dr. Doria Munoz ‘06, associate dean of students and director of student involvement. “So, we had to think creatively,” she said. “How can we bring people together that’s not physical?”

The Student Involvement Center has created virtual activities such as bingo, paint night, trivia night, and book clubs. They hired a virtual mind reader for the students’ entertainment one night, and there have been numerous outdoor activities included both fun and food!

Green & Gold Dining Hall Goes Take-Out Only for Fall

Due to gathering and food-serving restrictions from state government, our Green & Gold Dining Hall, which recently saw a fresh remodel (see page 42), shifted to take-out only. Students were often seen carrying take-out boxes across campus to their residence halls or outdoor seating spaces. To lift students’ morale and stay focused on safety guidelines, an innovative sticker campaign was launched called, “It’s in Our Hands!”

A collaboration between Student Involvement and University Relations, a sticker was applied by volunteers to the boxes top of each meal. The sticker depicted the MU student with their own quote and words of encouragement reminding fellow classmates why it is important to wear a mask and keep to guidelines. The first wave of stickers had an additional QR code that students could scan with their phone to watch a personal video message from that sticker’s corresponding student. Methodist students took an active role in following safety protocols and encouraging fellow students when they needed it most.

Just a few “firsts” for MU during this full year of COVID:

- Student Orientation held online
- Commencement Ceremonies including Baccalaureates, held online
- Greek Life organizations and the Honor Society Phi Kappa Phi utilize online inductions
- White Coat ceremonies and pinnings, held virtually
- The Green & Gold Dining Hall, take-out only in the fall
- Homecoming (and all of the surrounding festivities and sporting events), canceled
- All athletic events, canceled in the fall
- Mr. And Miss Methodist events, canceled
- Some students, such as our international students, lived on campus year-round as travel was restricted
- Travel Abroad opportunities, canceled
- At times, classes held online for some or all residential students (“Remote Learning”)

Covid Crush’em: The MU Community Descends Upon Sink Field for a Day of Fun

Students, faculty and staff roamed up some sun, played games, and enjoyed delicious food during the COVID Crush’em Challenge. The event was hosted by Religious Life, The Center for Community Engagement, and the Center for Sport Science & Wellness.

“COVID-19 caused a seismic shift in the way we live and learn which manifests itself in the mental, physical, and emotional lives of students,” said Rev. Kelli Taylor, vice president for Religious Life and Community Engagement and university chaplain. “We approached this collaboration as an opportunity to engage students—body, mind, and spirit—to address the stresses of COVID-19.”

Games were all COVID-themed, many of which highlighted the struggles the community faced on campus. These games included the “Fog Life,” which podfed fun at the fogged lenses of glasses wearers donning a mask; a mask-decorating station, and the opportunity to smash a ball decorated to look like the coronavirus.

“‘The scene was like a healing balm,” said Taylor. “An important goal of the event was to model how engaging events can be planned safely. Planning such an event is certainly more labor-intensive, but it is possible to have fun and to be safe. Kudos to the students, who were champions of mask-wearing and social-distancing without much, if any, prompting from staff.”

Mission, Messages, Music, and More

While MU is dedicated to following all safety protocols, we also remain creative with our efforts to “Engage, Enrich and Empower.”

Speakers and Presentations

Through speakers and their presentations shifted to online, it opened the door for the possibilities of a greater viewing audience which allowed anyone with a link to view the event from wherever they were.

Music Lifts the Spirit

The Music Department recorded and posted their performances, from student recitals to MU Chorale, allowing them to post on social media. They collaborated with two area high school programs which allowed more participants and more viewers who normally would not get the chance to watch due to their locations.

Staying Active in a Quarantined World

To stay active and fit, MU launched a yoga and mindfulness video series called “Feel Reset” led by Deborah Davis (who is married to MU President Stanley T. Warren). The series featured 10 videos recorded at various locations on MU’s campus.

Frequent Encouragement

A daily positive message campaign called “Daily Roar” was launched on MU social media in 2020. The uplifting campaign featured faculty and staff sharing a word of encouragement and wisdom.

Presidential Messages

In 2020, a Presidential Update Campaign was launched by Dr. Stanley T. Warren. Every weekday (March-May) he kept the MU community informed and supported a positive outlook. The president’s weekly missives often sent multiple times a week to students, faculty, staff, and parents – continue to offer great detail and vision for the entire community.

Spiritual Enrichment

Traditional Wednesday Chapel services at Methodist went outside and virtual, again opening the door to additional viewers. On Oct. 7, World Communion Day was held outside the Mass and Ministry Center while observing all social distancing and other protocols. A highlight was MU students from around the world reading scripture in their own languages.

Adjunct Chaplain Bricky Durham distributes Communion during World Communion Day.
Let the Games Begin

While athletic competitions were canceled in the fall, that didn’t stop our amazing student-athletes from staying sharp and in shape with masks on and while socially distanced. There was then great joy and anticipation when it was announced by the conference and university that all sports would compete in the spring. Though the first practices of 2021 were held in the chilly conditions of late January, our Monarchs took to the courts, courses, and fields and the first games of the 2020-21 school year were held. With the continued rise of COVID cases in Cumberland County early in the year, careful monitoring and decisions had to be made about spectators at events, but MUs Athletics has worked very hard to live-stream as many games as possible at munemonarchs.com.

Methodist University Passes the Test with Distinction (Dec. 2020)

Methodist University ended its Fall semester with success having completed the semester with in-person classes. On Dec. 12, Winter Commencement was held through a virtual live event on YouTube. Dr. Stanley T. Wearden (left) praised MU’s faculty, staff and students and delivered a special message to MU’s 2020 graduates.

“We’ve faced an unprecedented challenge and students, faculty and staff have risen to that challenge with remarkable hope, demanding work, and courage. Because of our willingness to work together as a team, we were able to complete the fall semester on campus in person,” said Wearden. “I’m so immensely proud of Methodist University and our December 2020 graduates for finding creative and effective ways to ensure that no mere virus could prevent Monarch teaching and learning. I believe in years to come we will look back on this as a time when we were severely tested and passed the test with distinction. Having been through this will only make us stronger and our memory of this time will remind us that if we can get through this pandemic together, we can do anything together.”

ALUMNI PARTICIPATION: GIVING BACK TO MU

Thank you to all of our alumni who gave back to Methodist University this year! Whether it was your time, talent, or treasure, we appreciate you. We have made significant strides in the past 15 years and we couldn’t have done it without you.

Our goal is to increase our alumni participation rate each year. Your gift is a vote of support for Methodist. U.S. News & World Report tracks alumni giving percentages to determine alumni satisfaction for its college rankings, and many foundations and major donors also consider alumni participation as they determine if MU is a place worthy of investment.

Alumni participation also demonstrates an attitude of gratitude for the education you received and the people who helped you earn it, while providing an even better experience for the next generation of students.

TOP 20 CLASSES IN DOLLARS GIVEN AND PARTICIPATION

Methodist University sincerely appreciates all alumni gifts, whether large or small. The percentage of alumni participation is especially critical, as it impacts rankings and grant opportunities.

Join the METHODIST UNIVERSITY PARENTS PROGRAM

The past year has been like no other, but we want to keep in touch!

If you’re not receiving parent e-mails, update your information at methodist.edu/parents/welcome

You will be the first to hear the latest news about special events, important deadlines, volunteer opportunities, and ways to get involved.

Visit methodist.edu/parents for more information.
Through strategic planning, grants and generous gifts, Methodist University was able to move forward on a number of campus construction projects in 2020. Through the next 10 pages, enjoy a bird’s-eye view of some of these projects that will impact our community for years to come.

EXCEEDING GOALS

The Nancy and Murray Duggins Soccer Stadium, completed in December, now offers dedicated soccer fans 200 stadium seats and a multi-use entrance for concessions, ticketing office for major tournaments, and restroom facilities. These improvements add to the two-story soccer fieldhouse and new stadium lights, which were installed in 2017. Duggins Stadium is already being lauded as not only one of the best NCAA Division III soccer facilities in the region, but as one of the best in the country.
GO WITH THE FLOW

MU restored the damaged ravine that runs through campus from Ramsey Street into the Cape Fear River. After decades of stormwater runoff, erosion, and hurricanes, the widening banks of the ravine were threatening the safety of buildings and structures “downback” near the golf course and tennis courts. In partnership with the Resource Institute, Inc. and the NC Clean Water Management Trust Fund, this 2,800-ft. Stream Restoration project offers long-term protection for campus structures and prevents dangerous levels of sediment from emptying into the Cape Fear River.
**RIGHT ON COURSE**

The fall season saw completion of essential golf course upgrades that exceed the new PGA Player Ability Test standards. Thanks to countless generous contributors, the Monarch golf course is now a par 71 at 6,502 yards. In addition, the existing practice tee range was leveled and finished with turf for year-round, all-weather use. These enhancements sustain the MU tradition of excellent preparation for graduates pursuing careers in the golf industry.
HERE TO SERVE

The Green & Gold Dining Hall serves up to 5,600 meals every week. Thanks to a generous contribution from Aramark Dining Services and a substantial gift from the Cannon Foundation, MU completed major renovations to the dining hall in August. Students, faculty, staff, and visitors now have a broader range of healthy meal options; a contemporary dining space; and assurance of uninterrupted service during any weather-related power failures.
THE FUTURE IS BRIGHT
A significant donation from the Mayeskie family enabled the installation of light stands in Monarch Stadium. For the first time, Monarch football, lacrosse, and track & field programs have options for scheduling night practice and competitions throughout the year. The lights also promote new opportunities for hosting high-profile regional athletics and other events.
A Path Less Traveled

Alumna shined as non-traditional student

by Gabrielle Isaac Allston ’15 and Wendy Hustwit

Ruby Strouse ’80 at a donor event in 2006

widowed military spouse living near campus in the Kenwood subdivision, Strouse found a home among her classmates and professors. Strouse, a native of Lumberton, N.C., met her husband at a New Year’s Eve Party at Fort Bragg. They were married in 1956 when she was 18.

Ruby’s husband, LTC William Richard Strouse, was deployed to Bangkok, Thailand early in their marriage. “I had never been in Southeast Asia before, so everything about it was new to me,” she said. Like so many military families stationed overseas, Ruby and her husband traveled whenever they could. They would often hop on training flights out of the Philippines to visit surrounding countries like China and India. Her favorite place was the Taj Mahal.

But whether overseas or living in Fayetteville, Ruby always delved into her own projects. While her husband worked, Ruby held jobs in Bangkok, one at an English language school and another as an English teacher at Thammasat University. It was there, working with undergraduate students applying to graduate schools in the United States, that Ruby first seriously considered her own college ambitions.

After years of travel, Ruby and William settled back in Fayetteville in the early 1970s. Ruby went back to work in a dental office and the couple built a house in the Kenwood neighborhood, just north of campus. Unfortunately, William died in 1973, leaving Ruby to forge a new path for herself. During this time, she and her dog, an Afghan Hound named “Golden Trumpet,” took daily walks together around the neighborhood and through campus.

“I could hear all the sounds from the different galaxies they played on the Methodist campus, and I could tell there was a lot of exciting activity,” she remembers.

Ruby stayed active in her church and with friends after her husband’s passing. Then, at age 48, Ruby found her next adventure—earning a business degree. She enrolled at Methodist in 1978, and, despite being twice as old as most of her classmates, Ruby found a new community that made her feel at home.

“People were just so kind. Even the young students treated me like I was one of them,” she recalls. She steadily remembers her English professor, Dr. Bob Christian, with whom she shared her love of language. She recalls her business professor, Dr. Sid Guntam, as a loving, patient person who taught her all about the stock market.

Unlike in her work with university students in Bangkok, however, Ruby was dedicated to her own studies at Methodist. When asked if she mentored any of her younger Methodist classmates, she replied, “No, I was too busy studying!”

After graduating in 1980, Ruby quickly accepted a job at the local Employment Security Commission. This was during a time of high unemployment and the office was always busy.

Outside of work and in retirement, Ruby continued her life of projects and learning. With her friend, French-born Martha Duell, she helped establish the Lafayette Society in 1981 and visited France four times with the group.

ABOUT THE LAFAYETTE SOCIETY

The Lafayette Society of Fayetteville, N.C., was founded in 1981 with the goal of raising funds for a statue of Fayetteville’s namesake to be erected in Cross Creek Park. After the statue was dedicated in 1983, the society continued to be a positive force in the community, funding scholarships for students pursing studies in French and contributing to the Lafayette Collection at Methodist University.

Ruby served as a member of the Methodist University Alumni Board for years and consistently and faithfully supported her alma mater with her talents and treasure. Strouse moved from her Kenwood home in 2010 to Penick Village in Southern Pines, N.C. Today, at 93, Ruby admits her eyes are getting blurry and some memories take longer to access, but she treasures her friends and her Methodist yearbooks, especially to help pass time during recent periods of quarantine due to the COVID-19 pandemic. While reminiscing on a recent phone call, she said, “I hope there have been other people who gained as much as I have from being there.”

Methodist was just the home Ruby Strouse needed.
“Whether it’s through the Greatest Gift Scholarships, our Loyalty Campaign, or an annual gift to MU, your generosity is what makes it possible for so many of us to pursue our dreams at Methodist. Thank you so much for the difference you make!”

Jessica Womble ’22
Biology Major
(Wade, N.C.)

So that the next generation of college students can benefit from what you know is a unique, one-of-a-kind education at Methodist University, we are one of only a few institutions in the entire country offering what we call the “Greatest Gift Scholarship.”

This scholarship — offered by alumni, but at no cost to alumni — is given to encourage students to attend Methodist. As an MU graduate, you can award one new Greatest Gift Scholarship per year to a full-time, first-year day student or new transfer student that you actively recruit for undergraduate admission.

To learn more about the Greatest Gift Scholarship or request an application, contact the Alumni Affairs Office at 910.630.7167, toll-free at 800.488.7110, or via email at alumnioffice@methodist.edu. You can also visit www.methodist.edu/alumni/greatest-gift-scholarship for eligibility and other FAQs.
A Champion-Sized Gift
Emeritus Professor’s Career of Service Honored with Endowment Gift

Dr. Darl H. Champion Sr., Emeritus Professor of Justice Studies, has built a career of service to students, to Methodist University, and to the Fayetteville community. In honor of Dr. Champion’s legacy of service, his son, Darl “Champ” Champion Jr. ’04, recently donated $250,000 to MU to establish a new endowment and rename the existing Center for Excellence in Justice Administration at Methodist to the “Dr. Darl H. Champion Center for Excellence in Justice Administration.”

The “Dr. Darl H. Champion Endowment for Criminal Justice” will offer permanent, annual funding for students pursuing a degree in Justice Studies at Methodist University. Each year, funds earned from the endowment will help resource three areas within the department: equipment, student travel support, and educational outreach.

Dr. Champion started teaching Criminal Justice at MU in 1993 and retired in December 2018. During his distinguished teaching career, he established the Justice Studies Department at MU and the Master of Justice Administration program. Dr. Champion is well known across the University for being a committed and patient educator who instills in his students a love for the learning process. He is known throughout the Fayetteville area for his commitment to civic improvement and well-being for all residents. Dr. George Hendricks, former dean and current senior director for community affairs, said Dr. Champion epitomizes what a faculty member at MU should be.

“He embodies the concepts of truth, virtue, justice, and love in his work with students and in his ‘service above self’ mentality. He’s a role model in community service,” said Hendricks.

Dr. Champion is a founding member of Greater Fayetteville United (G FU), a grassroots organization dedicated to improving the quality of life in Fayetteville through education, cooperation, and empowerment. GFU projects include evaluating social capital gaps and solutions in education, economic development, crime and safety, senior engagement, and affordable housing.

This significant gift, like Dr. Champion’s contributions, will empower MU students with the tools to succeed. Dr. Eric S. See, professor and chair of the Department of Criminal Justice, praised Champ for his generosity.

“This endowment will benefit the department and students for decades to come,” said See. “It will help purchase much needed equipment that will benefit both faculty and students. Student scholarships and research were important to Dr. Champion, and this gift will allow us to send students to academic conferences, connect students to the latest research and scholarships, and allow them to network with top experts in the field, which add valuable components to their educational experience.”

Dr. Champion and his wife, Victoria, have three children. Since retiring from Methodist, Dr. Champion and his wife have lived in Greensboro, N.C., where they moved to be closer to their two oldest children and their grandchildren.

The new fund’s donor, Champ, and his sister, Kimberly Champion Johnson ’91, both graduated from Methodist. Kimberly lives in Mooresville, N.C., and works for Lowe’s Home Improvement at their corporate office.

After Champ graduated from Methodist University in 2004, he went on to earn a law degree from Mercer University in Georgia in 2007. Champ is currently practicing law at The Champion Firm in Atlanta, Ga., a personal injury law firm that he established in 2014.

“I believe you’re not a self-made person; there is always someone or some group of people who are responsible for helping you get to where you are. If it were not for MU, I would not be where I am today,” said Champion Jr. “MU played a big role in our family. This gift made perfect sense. It was a way to give back to MU in a way that would make a real impact, while also honoring my father for everything he accomplished at the school. This fund will provide financial resources every single day. The gratification from giving this gift is tremendous.”

Champ has advice for anyone who may be considering this type of gift.

“If you can do something, regardless of size, do it. Everyone should look for opportunities to give where they can make an impact. For anyone who attended MU, donating to MU is a great opportunity to give back,” said Champion Jr.

Roman emperor and philosopher Marcus Aurelius said, “What we do in this life ripples in eternity” If that’s the case, the Champion family’s generous contributions will make ripples through the lives of MU students and colleagues both now and for years to come.

If you are considering an endowment, please contact: R. Gregory Swanson, Vice President for Advancement & Senior Counsel, at 910.630.7200 or gswanson@methodist.edu.

Make a Tax-Wise Decision and Support Our Mission!
What is an IRA Charitable Rollover Gift?

An IRA charitable rollover allows taxpayers to make tax-free charitable gifts up to $100,000 directly from their Individual Retirement Accounts to eligible charities like Methodist University. If you are 70 1/2 years old or older, you can use your IRA to support MU!

Benefits of an IRA Charitable Rollover Gift

Simplifies the giving process. It’s easy to do — just notify your IRA custodian.
Minimizes the effect your giving has on your cash flow, as you’re giving from your assets, not your paycheck.
Helps avoid limits on charitable deductions and prevents you from being pushed into a higher tax bracket.
May satisfy your required minimum distribution, or RMD, up to the amount of your gift.

For more information, visit mu.giftlegacy.com or call 910.630.7200.
2019-2020 Alumni Giving by the numbers

CLASS of ’66 jumped 28 spots in dollars given to No. 2.

The class of ’09 climbed into the Top 20 in participation percentage after ranking #30 last year.

The ’60s and ’70s still dominate the Top 20 Participation List with 14 of the Top 20.

Alumni nearly doubled their giving in 2019-20 with $431,149.

The Class of ’64 resumed the top spot in participation while the Class of ’70 has maintained the hold on dollars given for the past three years.

For more information on alumni giving by class, please contact Kirbie Dockery ’03, Senior Director of Advancement Services & Prospect Research at 910.630.7167 or kdockery@methodist.edu.

- Auxiliary 16.25%
Members of the President’s Cabinet

Thank You Donors

As we close this special section highlighting gifts from last year, I want to take a moment and personally thank each and every donor for the contribution you made to the Monarch community. Every gift is important, whether it’s found in cumulative giving, planned or annual giving, or it’s to the contribution of our athletic department, they all make a statement and a difference.

Speaking of making a statement, we’ve noticed class participation and dollar amounts given continues to rise thanks to our proud MU alumni. Class participation is especially crucial, as it impacts ranking and grant opportunities. On behalf of Methodist University, I offer our sincere gratitude. It’s been a unique year and we could not have moved forward without your care and support. We look forward to hearing from (and hopefully seeing) you very soon.

CLASS NOTES

STAYING ENGAGED WITH OUR CLASSMATES

Jim Darden ‘69 has been elected governor of the first North Carolina Chapter of the Jamestowne Society. The term runs 2020-21. If any classmates have Jamestowne ancestry and are interested in joining the association, please contact him at jdarden@merryjane.com.

Mark Kendrick ‘83 & Associates, LLP, with a staff of 10 BIA/EAP consultants, is celebrating 30 years in providing regional businesses with human resources and employee assistance services for employees and their family members. Services include individual and family counseling, financial planning, anger management and customized corporate training programs.

Rickey Hill ‘90, Loyola University’s cheer and dance coach since 2016, was named 2nd vice president of the NAIA Competitive Cheer Coaches Association. He will serve on the rules committee for the next two years, and he’s also in his second year as chair of the Southern States Athletic Conference for cheer and dance.

Dawn Krawczyk ‘92, her husband Nathan, and their children relocated to Clarksburg, Md., in Aug. 2019 to be closer to family. Nathan is a third-grade teacher in the Montgomery County Public School System. Dawn is the director of Youth and Children’s Ministries at Chevy Chase UMC. Dawn would love to hear from you at dawnnducks@hotmail.com.

Juliana Soza ‘90 was named chief institutional relations officer for Intervenexenct Electrica SA ESP (IESA) in Sept. 2020. She has more than 20 years of experience in leadership for multinational companies in the U.S. and Europe, including commerce, marketing, communications, corporate affairs, and public policy advocacy. Since 2019, Juliana was called by President Ivan Duque and Vice President Marta Lucia Ramirez to be part of the Presidential Advisory Council of Colombian Businesswomen.

Daniel Caleb McKeel ’03 was promoted to the rank of Lieutenant Colonel in the U.S. Army in Oct. 2020. Stacey (Shedd) Walsh ’04 opened Serenity Massage & Aesthetics in Dunn, N.C., in June 2020. The business offers massage therapy, corrective facials, skin care, hair removal, and spray tanning.

Ron (Wilkinson) Williams ’65 was awarded the 2019 Clear Channel Outdoor Way Spotlight Award. The award recognizes employees who consistently demonstrate exemplary performance and dedication to their clients, coworkers, and communities. As a part of her prize package, she was gifted an all-expenses paid trip to New York City, where she was honored on a digital billboard in Times Square.

Ricca Calbatinc ‘93 was appointed vice president for diversity, equity, and inclusion at Berea College (Ky.). He has been with the college since 2003 and has taught American History, African-American History and General Studies. He serves as professor of history and the Carter G. Woodson chair in African American History.

Kim Miller ’95 was named a Troy Webb Outstanding Coach Award winner by the N.C. High School Athletic Association. She has been at Swansboro High School for 24 years and serves as a co-athletic director while coaching volleyball and basketball.

Craig March ’00 has been named the new women’s golf head coach at Black Hills State University in Spearfish, S.D.

In March 2020, Daniel Reza ‘14M was selected to be the program manager of the Counter-Insider Threat Program at the Defense Information Systems Agency (DISA) at the agency’s headquarters in Fort Meade, Md. DISA is a Department of Defense (DoD) Combat Support Agency tasked with providing DoD information network command and control capabilities across the department and to the president, vice president, and joint chiefs of staff, among others. DISA’s Counter-Insider Threat program is tasked with investigating and assessing all acts committed by trusted insiders that place agency resources at risk. Reza is in his 12th year of federal civil service.

After nine years of being an associate at a law firm, Rhyan Bragg ‘97 started his own practice in his hometown of Wilson, N.C., where he focuses primarily on criminal law and small business formation and development.

Andrew Guthrie ’98 graduated from the School of Advanced Military Studies (SAMS) on May 21, 2020, earning a Master of Arts in Military Operations. This will be his second master’s degree since graduating from MU. Andrew will be assigned to Fort Bragg, N.C., to serve as his SAMS utilization and follow-on assignments as an information operations officer.

James Ruiz ‘10M, the former chief of the Gaston County Police Department, came out of retirement this summer to become head of security at a private school in Gastonia, N.C. He retired from Gaston County Police in July 2015 after more than 29 years in law enforcement.

James Brittain ‘11M took over as chief of police for the Gastonia (N.C.) Police Department in October 2020. He has served the department for 25 years, the last six of those in executive management. In January, Gaston Clergy andCitizens Coalition named Brittain as one of the 2021 recipients of the Martin Luther King Unity Award.

Travis England ‘12M graduated from Texas A&M University with a Bachelor of Science in Kinesiology and a minor in Business. He has been working at the Department of Defense for five years in various roles. He currently serves as a branch chief in the Office of the Secretary of Defense, where he is responsible for the development and execution of department-wide policies and procedures.

Gabriela Mendez ’17 was named to Oklahoma’s Next Generation of Leaders and Achievers (NextGen Under 30) for K-12 Education. Mendez serves as Living Lab Coordinator at Kingston Elementary, Middle and High School in Kingston, Okla. She earned her Master of Public Health from Oklahoma State University.

Cheri Mattin ‘17 graduated from East Carolina University with a Master of Library Science (MLS) with a concentration in Academic Libraries in May 2020. For her internship, she worked with Artem Field in the Methodist University Darwin Memorial Library Archives on the Catherine Huks Collection.

Vic Ward ‘72M has been named chief of the Carolina Beach (N.C.) Police Department. Retired from the North Carolina Highway Patrol, Ward took over on Dec. 1 and oversees 33 police officers and administrative staff.

Rachael Arabian ’14D is the first MU physical therapy alumni to graduate from a neurologic residency program. Rachael was accepted to Johns Hopkins Hospital and University of Delaware Neurologic Residency Program in 2018 and has spent more than 13 months gaining clinical experience in a variety of settings in addition to serving as a clinical instructor at the University of Delaware.

Ashley Hemingsway ‘18 graduated from Virginia Commonwealth University in May 2020 with a Master of Science in Biochemistry. She is now attending Virginia Commonwealth University School of Dentistry to obtain a D.D.S. degree.

Since graduating, Morgan (Gehres) Swain ‘15 has married and had two children. She is a qualified autism service practitioner supervisor at A New Leaf Diagnostic Services, PLLC, and attending classes to complete a master’s of Applied Behavior Analysis.

William “Bill” Harrell ’16M was appointed Franklin, N.C., police chief on June 1, 2020. Chief Harrell transferred from Highlands police chief in Macon-Jackson County, N.C., where he served for almost 15 years and has been serving in public safety for nearly 30 years.
ENGAGEMENTS

Kim McCall '05 is engaged to Adam Dresser and planning a March 27 wedding.

Ravon Sheppard '14 announces his engagement to Erin Ingram. They are planning a May 22 wedding. Ravon is a music teacher for Montgomery County Schools (N.C.).

Junko Suzuki '09 is engaged to Blair Hakeins. Junko is a regional league manager for PGA of America and Blair is the head golf professional at Rolling Hills Country Club.

Jessica Bell '17 is engaged to James Akkinson. James is a hazardous waste specialist at N.C. State University and Jessica is a law student. The couple met at Methodist in Wendy Younger’s class.

Mariana Huppenmeyer '13 is engaged to Anthony Holdaway '13 and planning a Sept. 25 wedding. Marissa is an event manager for Hilmet and Anthony is a financial advisor with Merrill Lynch.

Maggie Harris '18 is engaged to Tyler Hardee '17. Maggie is a graduate student and Tyler is an engineering technologist with Pike Engineering.

Lizzy Bloomegcn '14 is engaged to Dustin Wrighter '14. Lizzy is an assistant program director for First Tre Metropolitan New York and Dustin is the director of golf for Golf Lounge 18.

Kelsee Prassall '19 announced her engagement to Casey Lewis. They are planning an Aug. 28 wedding. Kelsee is a supplemental staffing manager for Cape Fear Valley Medical Center in Fayetteville, N.C., and Casey is a manager at Carolina Farm Tech.

Pharradee ‘Neely’ Phanwarth '19 is engaged to Walter Barnett '17 and planning an April 17 wedding.

BIRTH ANNOUNCEMENTS

WEDDINGS
HONORING MU ALUMNI AND FRIENDS

Jean Bradley Nickerson ’64, 76, of Huntsville, Ala., passed away May 21, 2018. She was an elder in the Eastern Band of Cherokee Indians and was a member of the Great Huntsville Newcomers Club. She enjoyed nature, taking cruises, and playing bridge.

B. Wayne Autry ’65, 77, of Nebe, N.C., passed away Dec. 9, 2020. Coach Autry, as he was known in all the High Country, rounded the sidelines and hallways at Avery County High from 1971 to 1994. He coached varsity men’s and women’s basketball as well as baseball, men’s golf, and football at the school. He amassed more than 100 total wins in 20 seasons, including 69 straight conference wins as the women’s coach. He was named coach of the year among his peers 10 times. He retired as the school’s winningest girls and boys basketball coach in 1994. Wayne was survived by his wife of 55 years, Donna Aldridge Autry ’65.

D. Keith Cook ’65, 79, of Bedford, Va., passed away April 4, 2019. Over his more than 30-year career in city and county government, Keith served as assistant to the city engineer in Fayetteville, N.C. before becoming the county manager’s administrative assistant in Jackson County, N.C. As his career progressed, Keith served as county manager in Caroline County, Va. and in Stafford County, Va. Upon coming to Bedford in 1973, Keith served as city manager for nine years and retired as director of human resources for Roanoke County, Va. He is survived by his wife of 54 years, Ann Scott Cook ’66.

John W. Hamilton ’65, 77, of Waynesboro, Ga., passed away July 29, 2020. John taught in Griffin, Ga., and was a school guidance counselor in sandersville, Ga. He retired from the Burke County School System having taught at Waynesboro High School, Burke County Comprehensive High School and Burke County Middle School. He also taught at Augusta Technical College. He worked part-time for The True Citizen for several years. His brother, Robert “Bob” Hamilton ’72, was also a graduate and passed away less than two months later.

Delores Maples Bunch ’66, 75, of Wilmington, N.C., passed away Oct. 2, 2019. She loved the life of her life, Lonnie, as Methodist and they were married the following year. She was a people person and enjoyed a long career in banking at United Carolina Bank/BB&T before her retirement.

Norma J. (Blish) McNally ’66, 86, of Greenville, N.C., passed away June 4, 2019. Norma graduated from Texas Christian University. Her first job was cashier at Boulevard Drive-In Theatre in Fayetteville, N.C. She then went back to school at Methodist, received a teaching degree, and taught for many years in Cumberland County Schools.

Frederick Thomas Ritter, Jr. ’67, 74, of Fayetteville, N.C., passed away Jan. 15, 2020 after a short, but fierce battle with pancreatic cancer. He was a lifelong outdoorsman, spending every free minute in the woods or on the lake. Fred was a mentor to many, teaching people hunting and fishing skills he had acquired over a lifetime of experience.

Mary Frances (Fincher) Wells ’67, 76, of Ashland, Va., passed away Jan. 13, 2021. She met her love, Milton (Maynard) Wells ’68 at Methodist and the two moved to Ashland, Va. where she became a homemaker and mother of two sons. In 1994, she went to work for Hanover County as a clerk to the Juvenile and Domestic Relations Court. After Maynard’s passing, Mary rekindled a friendship with college friend guy “bud” Beattie ’64.

Donald W. Bouldar ’68, 75, of Pembroke, N.C., passed away Sept. 23, 2020. Donald practiced law in Robeson County and surrounding areas for nearly 40 years. It is a common occurrence among his colleagues that he was one of the most accomplished and skilled trial attorneys Robeson County ever had.

Margaret Rose Dickinson Dejwang ’68, 78, of Clinton, N.C., passed away Sept. 9, 2020. She was a dedicated educator in North Carolina and Florida. She taught for more than 30 years, impacting many students’ lives along the way.

S. Claire (Godwin) Hopkins ’68, 74, of Lake City, S.C., passed away Sept. 12, 2020. After she retired from Clarendon District 3 after also serving at Lake City High School and Olalla High School, she continued her calling as an English instructor for Florence Darlington Tech, Limestone College, and Coker University.

Dave worked for many years as both Black & Decker and Paco Industries but primarily at Paco where he later became president of Paco Consumer Products. He served as Methodist College Board of Visitors President and Methodist College executive in residence at the Reeves School of Business.

Dr. Jerry N. Woods, 81, of Fayetteville, N.C., passed away May 7, 2020. He taught at four colleges and universities in the Fayetteville area: the University of North Carolina at Pembroke, Fayetteville Technical Community College, Methodist College, and Fayetteville State University.

Dr. L. Stacy Weaver, here overseeing the construction of the Davis Memorial Library circa 1966, was not just the first president at Methodist, he was the rock upon which all future leaders have stood. A giant in the community, Weaver was the primary force in establishing a mission for the university that we follow all these decades later.

Dr. Stanley T. Woodsen – here in the Indiana he wears often on campus – is MU’s fifth president, charged with overseeing the vision and mission of the university. He said: “I was drawn to MU because of what Dr. Weaver started here, and I am honored to have the opportunity to keep that remarkable mission moving forward.”
Methodist University
Where *Excellence* and *Value* Come Together

While the job rates and average salaries of our graduates prove that a degree from Methodist University is one of the smartest investments a prospective student and their family can make, it's also an amazing value.

With more than 95 percent of MU’s students receiving financial aid, the majority of our students have the opportunity to attend this independent, top-tier-ranked university at a similar cost as the big-box, public schools.

Find out more by speaking with expert staff in our Admissions Office. You don’t have to figure all of this out on your own; we’re here and eager to help you through the process.
