

# Re-Vamp CHAMPS

Cole Bondarek

Advisor: Dr. Denise H. Bauer

## Problem

- ❑ The problem is that college students are having to go to this program called CHAMPS and it is not helping a lot of kids how it is supposed to.

## Survey Results

- Football Player #1-Said that CHAMPS wasn't helping him at all because he felt like it was a bad thing because you were not allowed to do anything which makes him want to do nothing.
- Football Player #2-This player said that CHAMPS helps him a little bit but not too much because he thinks that there should be some type of reward for going all the time.
- Soccer Player #1-He said that it helps him gets his work done but is always hungry which stops him from getting what he need to get done, done.

## Ideas

- ❖ Build a whole facility just for CHAMPS right beside the outside basketball courts.
- ❖ Make phones allowed because we are not in middle school anymore.
- ❖ Have a more comfortable setting and have free food and drinks.

## Constraints

- The number one constraint is what everything would cost for a full improvement even though this is what it needs.
- Time and planning is also another big issue because this is going to take a lot of different minds to figure out the perfect solution.
