

# Allison Hall Computer Rooms

Charles Jacobs, Conan Hooker Humphries, Kalkidan Gebrehiwot

Advisor: Dr. Denise H. Bauer

## Problem:

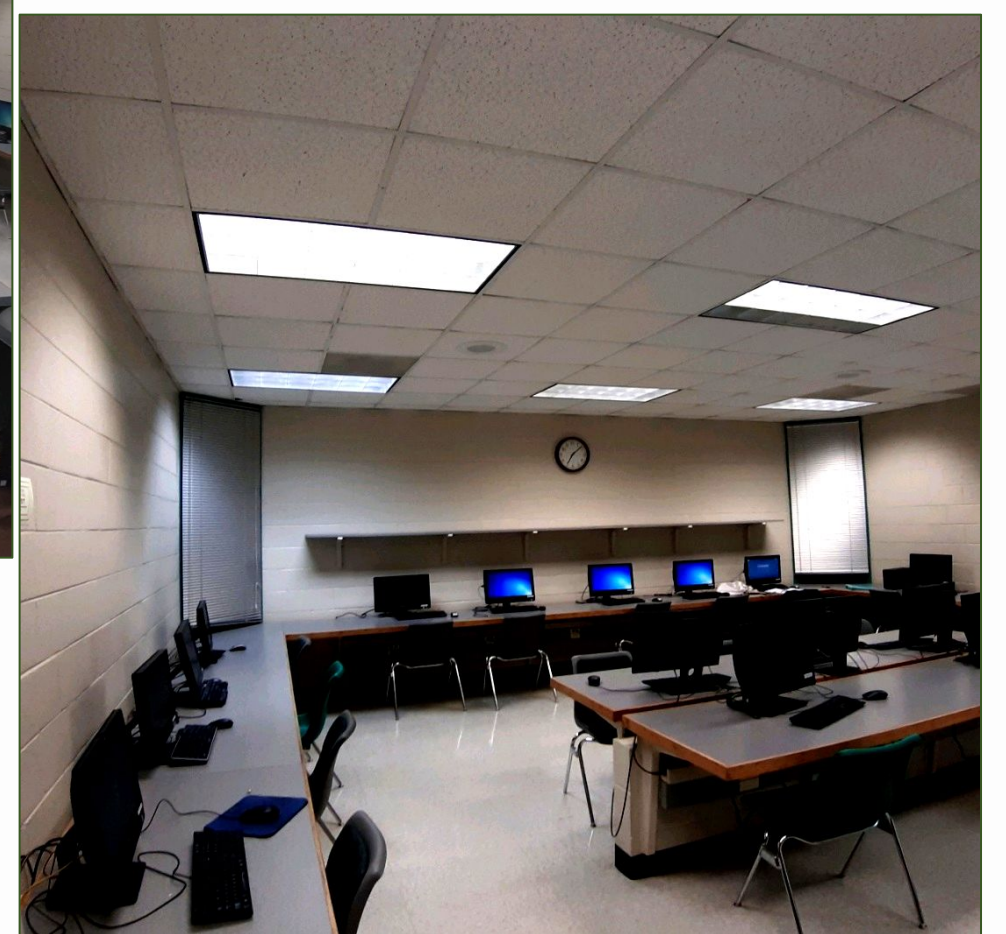

According to the survey collected from students and staff, we found that the Allison Hall Computer Rooms lack proper usage of space. In addition, students complained that they hardly see the board/front screen while professors lecture.

## Data collection:

- ☐ Surveyed faculty and students of the MU community.

## Constrains:

- ☐ Time
- ☐ Space
- ☐ Budget
- ☐ Number of students that take CSC course

## Possible solutions:

- ☐ Change seats and computer direction to face the board.
- ☐ Remove extra computers.
- ☐ Provide an app that projects the front screen for students.

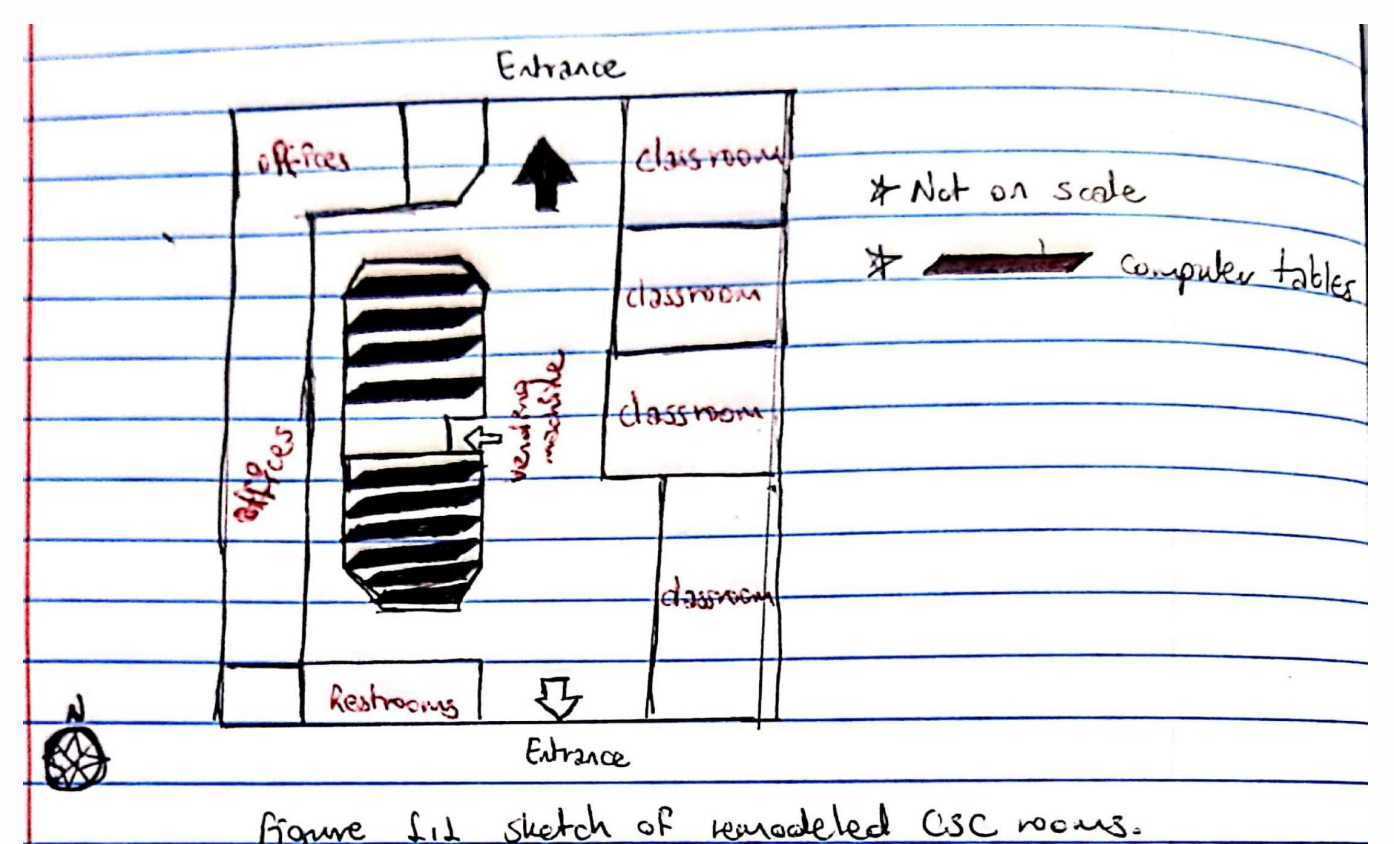

Figure 1.1 sketch of remodeled CSC rooms.

Sketch of remodeled CSC rooms

## How these solutions might help:

- ☐ More room for students.
- ☐ Enable students to follow lectures easily.
- ☐ Enhance learning outcomes of professors.
