

## FALL2008-FALL 2017 STUDENT ENROLLMENT OVERVIEW

The following report is derived from census enrollment. Census enrollment is derived from two snapshots taken the Monday after Evening I Weekend Drop/Add and Evening II Weekend Drop/Add. The Snapshot at Evening II Weekend Drop/Add includes only the students enrolled in Evening II. These snapshots are combined into an unduplicated semester file used for internal and external reports.

In Fall 2009, the MBA program moved back to campus and changed into an eight-week term weekend format. In Fall 2015, students in the Study Abroad program were included in the headcount if they paid MU tuition. The Master's of Education program was put on hold for the academic year 2016-2017 and was relaunched in the Summer of 2017.

Course Enrollment type is based on which subterm type a course is being taught. The Course Enrollment Types are broken down into categories which are summed up for an overall unduplicated count. For this report the subterm Physician Assistant Fall II has been folded into the Day subterm.

For this report, academic program information is based on the students first major, first concentration, and first certificate. In cases where the student is enrolled in a major and certificate program, only the major is counted in this report.
